*** Please note we are unable to bill Slip, Buoy or Dry Storage accounts

*** To ensure your winterization is completed on time, we must receive a written authorization at least seven days prior to first recorded freeze. We highly recommend to be done by November 1st to be safe!

Thank you for choosing the Marine Service Center, and feel free to contact us anytime for all of your vessel repair, storage, and haul & launch needs!

2017 Marine Service Center Winterization Options
PRICES DO NOT INCLUDE TRANSPORT OF VESSEL TO OR FROM SHOP

Engine Winterization - \$229.50 + tax per Engine

The engine(s) are run on an antifreeze machine to clear the block of straight water. Fuel stabilizer is added to the fuel, and a fogging chemical is added to the engine. The batteries are then disconnected unless required for engine hatch operation. Engine oil will be checked and adjusted accordingly. For Dry Storage Vessels, the bilge plug will be removed and attached to steering wheel.

Yes, I would like to add shrinkwrap at a 10% discount!

Drive Service - \$297 + tax per Drive

Requires the vessel be hauled to the Marine Service Center - Haul/Launch fees vary by boat. Includes pulling the drive(s), changing gear lube, grease u-joints & gimball bearings, clean & refill monitor bottle, verify engine alignment. Inspect bellows and anodes. Top fluid levels & grease fittings. Make any necessary recommendations.

Yes, I would like to add shrinkwrap at a 15% discount!

House Systems Winterization - \$198 + tax

We drain fresh and lake water systems, as well as air conditioning systems. Non-toxic antifreeze can be pumped through the lines upon request. Can be done in conjunction with other options or on it's own.

Yes, I would like non-toxic antifreeze for additional \$30

Generator Winterization - \$135 + tax

Non-toxic antifreeze is run through generator. Engine is fogged & battery is disconnected.

Annual Maintenance Recommendations

Discounts Available - Call 928-645-1071 for more Information

The winter season is a great time to take care of those repairs that may have been overlooked during the season to gain more time on the lake. The certified technicians at the Marine Service Center are capable of performing everything from tune-ups to re-powers, welding repairs, fiberglass repair & complete bottom jobs. The following is a short list of the most commonly requested work. In the space provided, please indicate any additional work you would like performed.

Change Oil/Filters
